

FLORA FECSKE, HCA

DIRECTOR OF PHOTOGRAPHY

BIOGRAPHY

Born: 12.02.1988

Based: Vienna

Languages: English (fluent), Hungarian (native), German (A1)

Flora is a Hungarian cinematographer, currently based in Vienna and is available worldwide. She holds two master's degree in cinematography and has worked on several international narratives as well as commercials and music videos. She was the Hungarian nominee for International Award for Best Student Cinematography IMAGO, for the project *The longest night of the summer* in 2019. Her most recent award was *Best Cinematography* in short fiction (2022) at the *Festival de Cinema de Gramado*. Her latest narrative work 'YOU LAND' is currently in the official selection of *Torino IFF* and *Cairo IFF*. Flora has been invited to participate in the American Society of Cinematographer's (ASC) Vision Mentorship Program 21/22. She is an ICFC member. She is also a proud member of the Hungarian Cinematographers Association (HCA). She is immensely interested in human unconsciousness and capturing feelings through the human gaze is her key to get closer to portray the unportrayable. She is drawn to narratives that highlight the perception of what lies beneath the surface, in the unspoken and the overlooked. Her eye for details along with understanding explicitly the director's vision supports her to create luminous imagery. Flora is always open to new challenges.
